JAREAN NAVARAJ J

CINEMATOGRAPHER

OBJECTIVE

Passionate visual artist with expertise in cinematography, photography, and drone piloting, skilled in crafting compelling visual stories across diverse projects. Experienced in designing and executing lighting setups, selecting lenses, and creating dynamic camera movements to achieve cinematic aesthetics. Proficient in capturing high-quality images that convey emotion and narrative, as well as operating drones to produce unique aerial perspectives while ensuring safety and regulatory compliance. Strong technical knowledge of camera and editing equipment, keen eye for composition and detail, and a collaborative approach to delivering creative visions with excellence.

WORK EXPERIENCE/INTERNSHIP/PROJECTS

CINEMATOGRAPHER

- Worked as a cinematographer on seven short films, one cover song, and one advertisement shoot, showcasing my ability to adapt to diverse storytelling formats.
- In addition to my work as a freelance photographer and videographer, I specialize in managing lighting setups to enhance the visual quality and mood of scenes, ensuring they align with the project's tone and vision.
- Contributed significantly to creative decisions in shot composition, framing, and visual storytelling, consistently delivering cinematic visuals.
- With basic skills in post-production editing, I can seamlessly bridge the gap between production and post-production, enhancing the final output's quality.
- Hands-on experience has honed my technical expertise, creativity, and collaborative approach to bringing ideas to life on screen.

INTERN -IDEA HEAVENS

I completed a 3-month internship at Idea Heavens, where I gained hands-on experience working in a professional production environment. Following this, I have worked for 4 years as a freelance visual artist, collaborating with various clients on diverse projects. My expertise spans cinematography, photography, drone operations, motion graphics, graphic design, 3D camera animation, and video editing.

SKILLS:

- Videography
- Photography
- Gimbal operating
- Advanced lighting technique
- FPU drone operating
- Color grading proficiency
- Postproduction editing
- 3D camera animation
- Graphics designer
- Team collaboration
- Shot framing

I am proficient in industry-standard software, including After Effects, Premiere Pro, DaVinci Resolve, Final Cut Pro, and Blender, enabling me to bring creative ideas to life from concept to final output. My strong technical skills, artistic vision, and versatile approach allow me to deliver high-quality, impactful visual content across different mediums and styles.

I am a passionate visual artist with expertise in cinematography, photography, and drone piloting, skilled in crafting compelling visual stories across diverse projects.
